CONNECTED DATA

TECHNOLOGY PARTNERS

Data-driven Business Intelligence solutions. Transforming the way organisations prevent and reduce debt.

2021 - We Have Lift Off!

RhinoIT are proud to be the technology partner for Connected Data on this freshly launched venture. A powerful new approach to elevating insight across an organisation's debt and customer management processes.

AI Powered Data Discovery

A SaaS model that 'supercharges' internal capability by providing a secure, flexible and resilient data environment. Insightful dashboards that monitor debt portfolio in real-time and drive meaningful action.

Descriptive Analytics

Dynamic dashboards configured to bespoke requirements and updated at the frequency of choice.

Data Enrichment

Links to multiple data sources, presenting a clear view on impact and return on investment. Enriching overall portfolio and individual customer accounts.

Augmented Analytics

Blending latest and trending customer data with AI driven data analysis to provide a unique portfolio platform.
